About Us.

Introduction

MARC Racking Solutions was born from the need to optimize storage and industrial efficiency in Mexico. We identified a gap in the market for racking solutions and storage systems that offered flexibility, durability, and high performance. With a clear vision for growth and a focus on innovation, we decided to expand our reach to the United States, bringing our expertise and solutions to a wider audience. Today, we are proud to be a company that offers high-quality products and personalized service that responds to the needs of each client.

At MARC, we don't just manufacture racks; we offer comprehensive solutions that improve our clients' productivity and organization, providing continuous support throughout the entire process, from design to installation and maintenance.

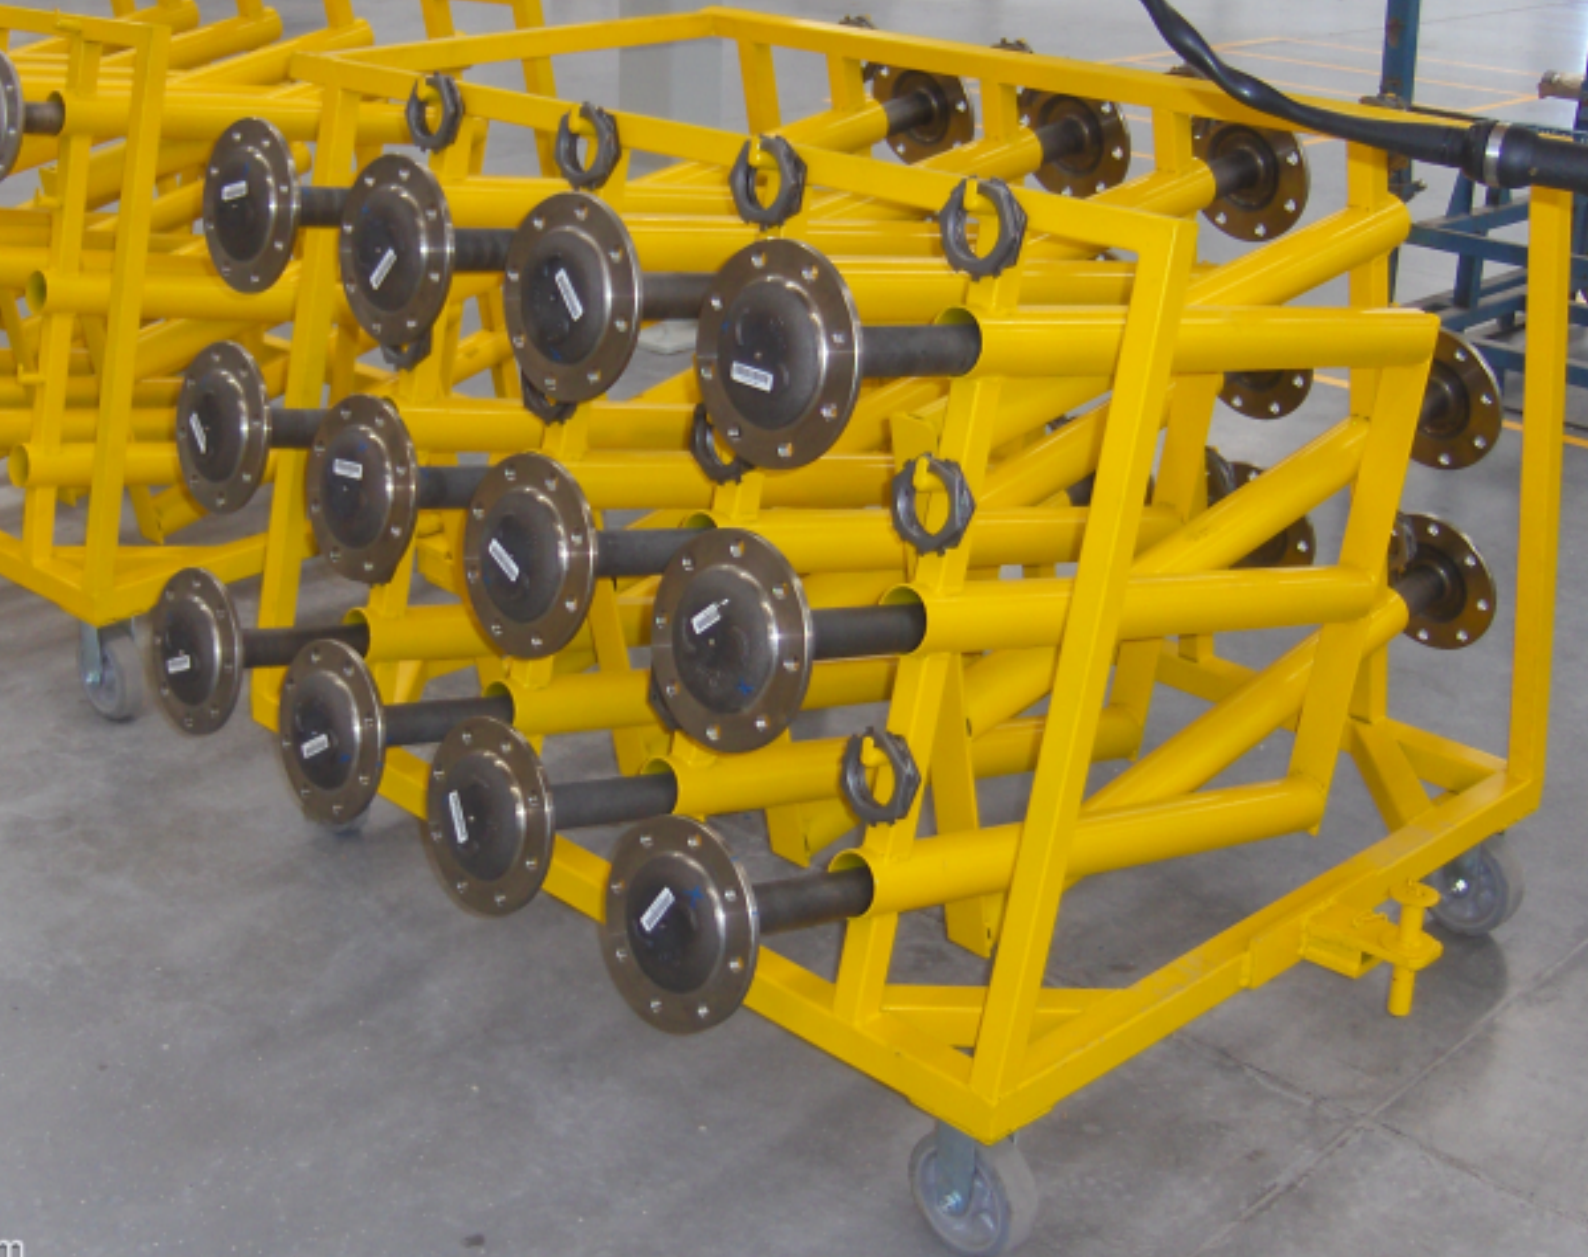

CORE VALUES

- Honesty
- Integrity
- Responsibility
- Passion
- Collaboration
- Creativity
- Agility
- Commitment

OUR DIFFERENTIATORS

The commitment of MARC Racking Solutions can be summed up in three words: integrity, efficiency and service. These values guide our team in building trust with customers, colleagues and the community around them.

- Flexibility in our services
- Quality
- Best service experience

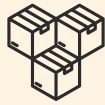

Our Philosophy.

At MARC Racking Solutions, we believe in space optimization and operational efficiency as fundamental pillars of industrial growth. We are committed to designing and manufacturing innovative, secure, and customized storage solutions that boost our customers' productivity. Through quality, technology, and exceptional service, we seek not only to meet the needs of the present but also to anticipate the challenges of the future. Our success is based on trust, sustainability, and continuous improvement.

Products and Services.

At MARC Racking Solutions, we specialize in the design, manufacture, and repair of storage racks and industrial mobility systems. We offer efficient and customized solutions, including selective and dynamic shelving, mezzanines, and specialized structures to optimize space and improve your company's logistics. Trust our experience and technology to maximize the efficiency and safety of your operations.

and administration
Specialized software for
administration

STORAGE LEASING & GUARD

Storage administration.
Container leasing.

Our Work.

MARC Racking Solutions specializes in the manufacturing and design of custom industrial storage systems, such as shelving racks, modular structures, and mobility systems that optimize space use and improve operational efficiency. Our products are made with high-quality materials and are tailored to each client's specific needs, whether in warehouses, factories, distribution centers, or logistics environments. We also offer consulting, installation, and maintenance services, ensuring that each solution is functional, safe, and scalable. With a focus on innovation and performance, we work to provide comprehensive solutions that contribute to our clients' growth and competitiveness.
